

ftnTheory.GenModBranching.cmd
Parser

branching.ChapBrModPt.renew

branching.ChapBrModPt.set
Parameters

branching.ChapBrModPt.reset
Overlaps

```
graph LR; A[ftnTheory.GenModBranching.cmd Parser] --> D[branching.ChapBrModPt.reset Overlaps]; B[branching.ChapBrModPt.renew] --> D; C[branching.ChapBrModPt.set Parameters] --> D;
```

The diagram illustrates a flow of control or data from three separate components on the left to a single target component on the right. The three components on the left are: 'ftnTheory.GenModBranching.cmd Parser', 'branching.ChapBrModPt.renew', and 'branching.ChapBrModPt.set Parameters'. Each of these components has a blue arrow pointing towards the right, where they converge on a single box labeled 'branching.ChapBrModPt.reset Overlaps'. This target box is shaded gray, while the source boxes are white with black borders.
