

canvasses.MULTImode.clicked3

canvasses.PATHmode.clicked3

canvasses.DRAGRECTmode.release3

canvasses.ActiveWrapper.set
DefaultMode

```
graph LR; A[canvasses.MULTImode.clicked3] --> D[canvasses.ActiveWrapper.set DefaultMode]; B[canvasses.PATHmode.clicked3] --> D; C[canvasses.DRAGRECTmode.release3] --> D;
```

The diagram illustrates a flow where three distinct source actions on the left converge into a single target action on the right. The source actions are 'canvasses.MULTImode.clicked3', 'canvasses.PATHmode.clicked3', and 'canvasses.DRAGRECTmode.release3'. Each source is contained within a white rectangular box with a thin black border. The target action, 'canvasses.ActiveWrapper.set DefaultMode', is contained within a gray rectangular box with a thin black border. Three blue arrows originate from the right side of each source box and point towards the left side of the target box, indicating a directed relationship or data flow.
