

circlePack.ShellControl.swap
PackData

```
graph LR; A[circlePack.ShellControl.swapPackData] --> B[allMains.CPBase.CPBase]; B --> B;
```

The diagram illustrates a function call. A grey rectangular box on the left contains the text 'circlePack.ShellControl.swap' and 'PackData' on two lines. A straight blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the text 'allMains.CPBase.CPBase'. A curved blue arrow originates from the top of the white box and points back to the top of the white box, indicating a self-call or a recursive operation.

allMains.CPBase.CPBase
