

JPanel

MouseListener

images.ThumbNail

```
graph BT;
    Thumbnail[images.ThumbNail] --> JPanel[JPanel];
    Thumbnail --> MouseListener[MouseListener];
```

The diagram illustrates a class hierarchy where the `images.ThumbNail` class inherits from both the `JPanel` class and the `MouseListener` interface. The `images.ThumbNail` box is positioned at the bottom, with two arrows pointing upwards to the `JPanel` and `MouseListener` boxes, which are positioned side-by-side at the top.
