

listManip.PointLink.PointLink

```
graph LR; A["listManip.PointLink.PointLink"] --> B["listManip.PointLink.add"]
```

A diagram showing a call from a class to a method. On the left, a gray rectangular box contains the text 'listManip.PointLink.PointLink'. A blue arrow points from the right side of this box to the right side of a white rectangular box on the right. The white box contains the text 'listManip.PointLink.add'.

listManip.PointLink.add
