

`math.Point3D.getAsSphPoint`

```
graph LR; A[math.Point3D.getAsSphPoint] --> B[math.Point3D.getPhi]; A --> C[math.Point3D.getTheta];
```

The diagram illustrates a method call relationship. A central gray box labeled `math.Point3D.getAsSphPoint` has two blue arrows pointing to two white boxes on the right. The top white box is labeled `math.Point3D.getPhi` and the bottom white box is labeled `math.Point3D.getTheta`.

`math.Point3D.getPhi`
