

canvasses.DisplayParser.disp
Parse

packing.CPdrawing.reset

packing.CPdrawing.setAxisMode

```
graph LR; A["canvasses.DisplayParser.disp  
Parse"] --> C["packing.CPdrawing.setAxisMode"]; B["packing.CPdrawing.reset"] --> C;
```

The diagram illustrates a dependency or flow relationship. On the left, there are two rectangular boxes. The top box contains the text 'canvasses.DisplayParser.disp' followed by 'Parse' on a new line. The bottom box contains the text 'packing.CPdrawing.reset'. On the right, there is a single rectangular box with a gray background, containing the text 'packing.CPdrawing.setAxisMode'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'canvasses.DisplayParser.disp Parse' and 'packing.CPdrawing.reset' are inputs or dependencies for 'packing.CPdrawing.setAxisMode'.
