

listManip.NodeLink.addNode
Links

dcel.CombDCEL.cookieData

panels.PathManager.path_wrap

```
graph LR; A["listManip.NodeLink.addNode<br/>Links"] --> C["panels.PathManager.path_wrap"]; B["dcel.CombDCEL.cookieData"] --> C; C --> C;
```

The diagram illustrates a flow or dependency structure. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'listManip.NodeLink.addNode' followed by 'Links' on a new line. The bottom box contains the text 'dcel.CombDCEL.cookieData'. On the right, there is a gray rectangular box with a black border containing the text 'panels.PathManager.path_wrap'. A blue arrow points from the right side of the top white box to the left side of the gray box. Another blue arrow points from the right side of the bottom white box to the left side of the gray box. A blue curved arrow starts from the top edge of the gray box and points back to the top edge of the gray box, indicating a self-loop or recursive call.
