

JPanel

ActionListener

script.ScriptBundle

```
classDiagram
    class script_ScriptBundle["script.ScriptBundle"]
    class JPanel
    class ActionListener
    script_ScriptBundle <|-- JPanel
    script_ScriptBundle <|-- ActionListener
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'script.ScriptBundle'. Two arrows point upwards from this box to two boxes above it: 'JPanel' on the left and 'ActionListener' on the right. This indicates that 'script.ScriptBundle' is the superclass for both 'JPanel' and 'ActionListener'.
