

script.ScriptHover.initComponents

```
graph LR; A[script.ScriptHover.initComponents] --> B[script.ScriptHover.initScriptArea]; B --> B;
```

The diagram illustrates a sequence of operations for script initialization. It starts with a box labeled 'script.ScriptHover.initComponents', which has a straight blue arrow pointing to a second box labeled 'script.ScriptHover.initScriptArea'. This second box is shaded gray and features a curved blue arrow that loops back to its own left side, indicating a self-loop or a continuation of the process within that method.

script.ScriptHover.initScriptArea
