```

The diagram illustrates a dependency or data flow. On the left, there are three white rectangular boxes with black borders, each containing a text label. These boxes are arranged vertically. On the right, there is a single gray rectangular box with a black border, also containing a text label. Three blue arrows originate from the right side of each of the three white boxes and point towards the left side of the gray box, indicating that the three white boxes are inputs or sources for the gray box.
