

auxFrames.SphWidget.lightup
Flower

auxFrames.SphWidget.setValue

auxFrames.SphWidget.displayRad

```
graph LR; A["auxFrames.SphWidget.lightup  
Flower"] --> C["auxFrames.SphWidget.displayRad"]; B["auxFrames.SphWidget.setValue"] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'auxFrames.SphWidget.lightup' followed by 'Flower' on a new line. The bottom box contains the text 'auxFrames.SphWidget.setValue'. On the right, there is a single gray rectangular box with a black border containing the text 'auxFrames.SphWidget.displayRad'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both 'lightup Flower' and 'setValue' methods depend on or call the 'displayRad' method.
