

`complex.MathComplex.distanceSq`

```
graph LR; A[complex.MathComplex.distanceSq] --> B[complex.Complex.imag]; A --> C[complex.Complex.real];
```

The diagram illustrates the calculation of the squared distance between two complex numbers. A central gray box labeled `complex.MathComplex.distanceSq` has two blue arrows pointing to two white boxes on the right. The top white box is labeled `complex.Complex.imag` and the bottom white box is labeled `complex.Complex.real`.

`complex.Complex.imag`

`complex.Complex.real`
