

frames.PackDataHover.action
Performed

frames.PackDataHover.load
Locked

frames.PackDataHover.updateData

```
graph LR; A[frames.PackDataHover.action Performed] --> C[frames.PackDataHover.updateData]; B[frames.PackDataHover.load Locked] --> C;
```

The diagram illustrates a sequence of events. On the left, two rectangular boxes are stacked vertically. The top box contains the text 'frames.PackDataHover.action Performed' and the bottom box contains 'frames.PackDataHover.load Locked'. Blue arrows point from the right side of each of these boxes to a single, shaded rectangular box on the right. This box contains the text 'frames.PackDataHover.updateData'.
