

graphObjects.CPFace.drawIt

```
graph LR; A[graphObjects.CPFace.drawIt] --> B[graphObjects.CPFace.sphDrawIt]; B --> B;
```

The diagram illustrates a method call. A light gray box on the left contains the text 'graphObjects.CPFace.drawIt'. A straight blue arrow points from the right side of this box to the left side of a darker gray box on the right, which contains the text 'graphObjects.CPFace.sphDrawIt'. Above the darker gray box, a curved blue arrow starts from its left side and points back to its right side, indicating a self-call or a recursive invocation.
