

input.CPFileManager.trailingFile

```
graph LR; A[input.CPFileManager.trailingFile] --> B[util.StringUtil.isFlag]; A --> C[util.StringUtil.reconItem];
```

The diagram illustrates a variable, `input.CPFileManager.trailingFile`, which is represented in a grey rectangular box on the left. Two blue arrows originate from the right side of this box and point to two separate white rectangular boxes on the right. The top box contains the text `util.StringUtil.isFlag`, and the bottom box contains the text `util.StringUtil.reconItem`. This visualizes the variable being passed as an argument to both of these utility methods.

util.StringUtil.isFlag

util.StringUtil.reconItem
