

`math.Point3D.CrossProduct`

```
graph LR; A["math.Point3D.CrossProduct"] --> B["math.Point3D.Point3D"]; A --> C["math.Point3D.Point3D"]
```

The diagram illustrates the return type of the `math.Point3D.CrossProduct` method. A gray rectangular box on the left contains the text `math.Point3D.CrossProduct`. Two blue arrows originate from the right side of this box, pointing to two separate white rectangular boxes on the right. Each of these white boxes contains the text `math.Point3D.Point3D`, indicating that the method returns a 3D point object.
