

`math.Point3D.scalarMult`

```
graph LR; A["math.Point3D.scalarMult"] --> B["math.Point3D.Point3D"]; A --> C["math.Point3D.Point3D"];
```

The diagram illustrates a method call. On the left, a gray rectangular box contains the text `math.Point3D.scalarMult`. Two blue arrows originate from the right side of this box. The top arrow points to a white rectangular box containing the text `math.Point3D.Point3D`. The bottom arrow points to another white rectangular box, also containing the text `math.Point3D.Point3D`. This visualizes the `scalarMult` method returning two `math.Point3D` objects.
