

frames.PairedFrame.action
Performed

input.CommandStrParser.jexecute

panels.ScreenShotPanel.store
CPIImage

```
graph LR; A[frames.PairedFrame.action Performed] --> C[panels.ScreenShotPanel.store CPIImage]; B[input.CommandStrParser.jexecute] --> C;
```

The diagram illustrates a flow where two separate actions or events on the left are directed towards a single target on the right. The top box, 'frames.PairedFrame.action Performed', and the bottom box, 'input.CommandStrParser.jexecute', both have blue arrows pointing to the right box, 'panels.ScreenShotPanel.store CPIImage'. The target box is shaded gray, while the source boxes are white with black borders.
