

ftnTheory.AffinePack.cmd
Parser

schwarzWork.Schwarzian.schwarz
Report

util.ColorUtil.blue
_red_diff_ramp_Color

```
graph LR; A["ftnTheory.AffinePack.cmd<br/>Parser"] --> C["util.ColorUtil.blue<br/>_red_diff_ramp_Color"]; B["schwarzWork.Schwarzian.schwarz<br/>Report"] --> C;
```

The diagram illustrates a dependency or relationship between three components. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'ftnTheory.AffinePack.cmd' followed by 'Parser' on a new line. The bottom box contains 'schwarzWork.Schwarzian.schwarz' followed by 'Report' on a new line. On the right, there is a gray rectangular box with a black border containing the text 'util.ColorUtil.blue' followed by '_red_diff_ramp_Color' on a new line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both the top and bottom components depend on or interact with the component in the gray box.
