

util.PostOptions.toString

```
graph LR; A[util.PostOptions.toString] --> B[allMains.CPBase.getActivePackNum]; A --> C[panels.PostPanel.getFlags];
```

The diagram illustrates a call to the `util.PostOptions.toString` method. This call branches into two possible return paths, represented by blue arrows pointing to the right. The top path leads to `allMains.CPBase.getActivePackNum`, and the bottom path leads to `panels.PostPanel.getFlags`. The source box is shaded gray, while the destination boxes are white.

allMains.CPBase.getActive
PackNum

panels.PostPanel.getFlags
